In the Voith Paper Webshop, the ordering of spare parts is simplified. Customers can opt to search for the spare parts they need using a clearly arranged tree structure or the order number, which may also be a customer-defined internal part number.

Spare Parts | Voith

The Voith turbo coupling is a hydrodynamic coupling working to the Föttinger principle. Its main elements consist of two blade wheels the pump impeller and the turbine - wheel - enclosed by a shell. Both wheels are provided with bearings relative to each other.

Installation and Operating Manual - Voith

Voith Schneider Propeller Designer Manual. Schneider Propeller, consists of a cylindrical shell with a flange at the top. The propeller well must form an integral part of the bottom structure of the vessel so that, in addition to the propeller's weight, the forces and torque resulting from the propeller thrust can be transmitted into the ship's hull.
