In *My Impressions*, author Frank Olsson captured many special moments during his worldwide travels and now shares these in this memoir and travelogue. A collection of twenty-nine notes on life and travel, the events take place in Asia, the United States, Europe, and New Zealand. The vignettes describe the locations and experiences with a light and positive approach, reflecting Olsson's appreciation for his rich life. Meet the cab driver in New York; have a drink at the Wells Tavern; tour Petoskey, Michigan; stroll the streets of Milano; and relax on the beach at Waikiki. Filled with vivid descriptions of people and surroundings, and interspersed with tidbits of local history, *My Impressions* showcases Olsson's wide array of experiences during his international

such as rooftop solar panels or wind parks, from utilities to private residents as producers of energy, and from analogue to digital. This book looks at the energy transformation from two complementary angles: governance and business model innovation. On the one side, governance is a decisive factor for the success of the transformation because it can act as an accelerator, or it can delay the process. On the other side, entrepreneurs and corporate decision-makers provide new business models for a decentralised energy world. Based on best practices, country studies and interviews with CEOs and founders of startups from all over the world, the "Global Game Changer" suggests eight key principles for political decision-makers to successfully implement the transformation, and six core competencies for corporate
